

PRESS RELEASE

For Immediate Release

ETERNAL LIMESTONES

Natural limestone has endured through the ages as a popular building material in locales across the world. Now the beauty and extensive color variations found in the original is recreated in ETERNAL LIMESTONES, Ragno USA's newest Color Body porcelain. Next-level digital print technology imitates the distinctive intricacies of Crema Europa, Jura and Lagos Blue limestones with such a high level of accuracy that it is difficult to distinguish the natural stone from the porcelain tile.

Clean, rectified edges accommodate narrower grout joints which give the illusion of an uninterrupted honed surface with few visual breaks. Natural limestone is characterized by pits, fossils and dry seams that require filling (and potentially, re-filling, over time); low abrasion resistance ratings; and rigorous, often professional, maintenance routines. Conversely, ETERNAL LIMESTONES has a Class 4 rating and an ADA-recognized coefficient of friction of ≥ 0.60 , cove base trims and minimal maintenance requirements, making it ideal for not only residential but also commercial floor and wall spaces.

Creative customization is easy with five large-format square and plank sizes plus four unique mosaic options. All these choices – colors, sizes, mosaics – free the imagination to craft personal design statements with the feel of authentic limestone.

Sizes: 20" x 20" Rectified 13" x 13" Brick Mosaic (1" x 2 1/2" - for each color)
 12" x 24" Rectified 12" x 24" Strip Mosaic (Large Random Strips - for each color)
 6" x 24" Rectified 13" x 13" Mixed Mosaic (Small Strips - accents all colors)
 13" x 13" Rectified 2" x 13" Grecian Metallic Deco (2" x 2" - accents all colors)
 3 1/4" x 6 1/2" Rectified

Type: Floor & Wall: Color Body Porcelain Tile, 3d Digital Print Technology

Colors: Limestone AN (Lagos Blue), Limestone BG (Jura Beige), Limestone BI (Crema Europa)
