

STUDIO M

Everything old is new again. **STUDIO M's** glass mosaics, offered in both tiny square and brick shapes are just as intriguing and as much a part of contemporary lifestyles as glass tessera have been for cultures throughout history. Shiny, reflective bits of glass in jewel-like colors bring out the artist in anyone trying to create either personal or public places that attract attention and make today's history.

Tendrils of multiple colors seem to float within the individual transparent mosaic pieces . . . dancing from one piece to the next, one color to the next, leading the eye through carefully-choreographed steps.

Extraordinarily versatile, the 13"x13" paper face-mounted sheets can stand alone as surfacing for entire walls or be precision cut to form accent decos or listelli strips to uniquely pair with other mediums such as stone, marble, travertine, wood or metal.

STUDIO M is suited for installation on exterior walls and pools. The Class 1 rating makes it a perfect choice for interior residential wall applications as well as residential bathroom floors.
