

# CRYSTAL STONE

12" x 12" Decos (mesh-mounted)

Floor & Wall: Glass & Marble Mix

Breeze, Caramel, Coffee, Gold, Honey, Ivory, Marine, Purple, Walnut

PEI 3 – Moderate / Heavy Traffic: Tile suggested for residential, medium commercial and light institutional floor and wall applications.

**CRYSTAL STONE** mosaics are delightfully composed of marble and glass segments featuring different surfaces – undulated and smooth, transparent and opaque – which become a ductile tool in the hands of architects, interior designers and homeowners. Warm and cool colors in graduated palettes taken from nature exhibit both the extensive range of tints and the changeable, tactile surface variations found there.

Geometric lines generate the optical impression of motion by capturing light and reflecting it back on many levels. Extensive colorways from lightest ivory to deep chocolate, palest blue to daring purple, softest tan to rich gold appear to continually reinvent spaces based on the changing illumination patterns.

The reflection of glass and depth of stone coalesce to effectively accentuate a variety of other field tiles for living styles ranging from classic to contemporary. Whether installed in full-sized sheets to fill large areas or cut into delicate strips or dots for jeweled accents, the multi-faceted, three-dimensional effects of **CRYSTAL STONE** communicate sophisticated taste.
