

KASHMERE

An exotic collage of colors and textures characterize **KASHMERE** with cross-sections of small stones, travertine influences and pronounced veining.

Three widely-ranged colors, loosely defined as beige, white and walnut, are achieved through Ragno USA's state-of-the-art 3d printing technique which uses the latest in **digital** print technology, allowing for infinite **design** capabilities unique to Ragno USA. Ragno USA is the only manufacturer in the U.S. that can do digital print up to 360 dpi, direct to tile. At this maximum resolution and with the unique grayscale printing technique, Ragno USA reaches finer, crisper and smoother **definition** for printed designs than other digital products. A stunning palette of more than 100 square feet with no repetition, at maximum resolution.

Manufactured using 21% pre-consumer recycled materials makes this residentially/commercially rated line not only beautiful and impact resistant but also environmentally friendly and fully capable of contributing to LEED credits.

The juxtaposition of large and small square sizes with the striking 2"x4" brick mosaic creates intriguing design transitions for exterior floors, walls, pools and facades in addition to common and not-so-common indoor applications. Think of tiled ceilings, columns and arches, stairways and window seats in addition to traditional walls, floors and countertops. Strong focal points are easily achieved with **KASHMERE's** bold combination of textures and shadings.

Sizes: 20" x 20" Field Tile
 13" x 13" Modular
 6½" x 6½" Modular

Type: Floor & Wall: Glazed Porcelain Stoneware, 3d Technology
