Floor & Wall: Color Body Porcelain Stoneware

Revision BG, Revision BI, Revision MA, Revision RS, Revision NE

PEI 3 – Light / Moderate Traffic: Tile suggested for residential floor and wall applications, including bathrooms, kitchens, foyers, dining rooms and recreation areas

REVISION's super-sized, color body porcelain modules with rectified edges capture the sensation of salvaged and lovingly-restored old wooden floors that have been given new life by sanding and hand waxing. The reflective surface produces a textured, almost blurred, effect that is easily incorporated into settings that range from high-end contemporary to rustic, shabby chic.

In addition to all the layout possibilities offered by the field tile itself, the decorative options take the series to new heights. A mesh-mounted Mosaic comprised of rectangular strips of varying lengths can be installed either horizontally or vertically, mirroring the plank effect of the field tile. The Nest Insert features rounded geometric patterns in glossy highlights for a fun, kinky, retro accent on walls.

The requirement for only minimal grout joints creates the impression of remarkable continuity, uniformity and expansiveness. Perfect for all walls and residential floors, **REVISION's** warm, intense colors – black, white, beige, brown, red – bring a classy, intellectual style to any venue.
